- (3) The investment examples presented herein reflect an objective, non-performance-based standard of showing invested and committed deals that illustrate BXPE's high-conviction themes and the types of thematic investments that may be made by BXPE in the future. These investments were selected based on audience familiarity of widely known brands that have sizeable investments or commitments within BXPE's portfolio, as of November 21, 2025 (to the extent BXPE is authorized to disclose such positions).
- (4) On January 2, 2024, BXPE announced its first close, marking the inception of the fund (Class I-A received subscriptions on January 2, 2024). Performance is shown from the share class inception date (being the date on which the share class has accepted third-party capital). Past performance of share classes with less than 12 months of performance data is to be read as supplemental to the performance of the fund. Performance varies by share class. Returns shown reflect the percentage change in the NAV per share from the beginning of the applicable period, plus the amount of any distribution per share declared in the period. Returns shown are reflective of each share class and not of an individual investor. Returns for periods of less than one year are not annualized. Return information is not a measure used under International Financial Reporting Standards. "IFRS." All returns shown are derived from unaudited financial information, and are net of all BXPE expenses, including general and administrative expenses, transaction-related expenses, management fees, performance participation allocation, and share class-specific fees. The returns have been prepared using unaudited data and valuations of the underlying investments in BXPE's portfolio, which are estimates of fair value and form the basis for BXPE's NAV. Valuations based upon unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated. As return information is calculated based on NAV, return information presented will be

impacted should the assumptions on which NAV was determined prove to be incorrect. See "Net Asset Value" on page 7 for further information on BXPE's determination of NAV. Fund returns exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than two years on individual investors.

- (5) "Strategy Breakdown" weighting is measured as the asset value of each of Blackstone's underlying business strategies (Corporate, Opportunistic, Growth and Secondaries) divided by the asset value of BXPE's investments, excluding Debt & Other Securities. Totals may not sum due to rounding. There is no generally accepted definition of the following strategy classifications and the use of different criteria in selecting investments could result in materially different classifications from those shown herein. All determinations are made by Blackstone in its sole discretion.
 - Investments are classified as **Corporate PE** if they are (i) minority or majority common equity investments in Operating Companies; or (ii) equity-linked securities (e.g., warrants, preferred convertibles) with uncapped upside (e.g., where the common equity component is a meaningful percentage of the investment amount or the returns from the equity-linked component account for a meaningful percentage of the underwritten returns).
 - Investments are classified as **Opportunistic** if they are (i) preferred equity with capped upside; (ii) corporate debt with equity-like returns (based on prevailing market conditions at the time of underwriting) but capped upside; (iii) structured investments in non-Operating Companies (e.g., forward flow, asset backed, MSRs, royalties, loan or credit pools); or (iv) collateralized debt with first loss equity exposure.

 - Investments are classified as **Secondaries** if they are (i) acquisition of limited partner interests or (ii) passive equity co-investments sourced by Blackstone Strategic Partners.
 - Investments are classified as **Debt & Other Securities** if they are used to facilitate capital deployment and provide a potential source of liquidity, including but not limited to, investment-grade debt, leveraged loans, and high-yield bonds.

Summary of Risk Factors

BXPE is an investment program designed to offer eligible individual investors access to Blackstone's private equity platform (the "PE Platform"). BXPE will seek to meet its investment objectives by investing primarily in privately negotiated, equity-oriented investments leveraging the talent and investment capabilities of Blackstone's PE Platform to create an attractive portfolio of alternative investments diversified across geographies and sectors. Investing in our Shares involves a high degree of risk. If we are unable to effectively manage the impact of these risks, we may not meet our investment objectives and, therefore, you should purchase our Shares only if you can afford a complete loss of your investment. You should carefully review the Prospectus for a description of the risks associated with an investment in BXPE. These risks include, but are not limited to, the following:

- Although the investment professionals of Blackstone have extensive investment experience generally, including extensive experience operating and investing for the PE Platform, BXPE has only recently commenced operations and has limited operating history. We cannot provide assurance that Blackstone will be able to successfully implement BXPE's investment strategy, or that investments made by BXPE will generate expected returns.
- This is a "blind pool" offering and thus you will not have the opportunity to evaluate our future investments before we make them.
- We do not intend to list our Shares on any securities exchange, and we do not expect a secondary market in our Shares to develop.
- We have implemented a periodic redemption program, but there is no guarantee we will be able to make such redemptions and if we do only a limited number of Shares will be eligible for redemption and redemptions will be subject to available liquidity and other significant restrictions. This means that BXPE will be more illiquid than other investment products or portfolios. In addition, there are limits on the ownership and transferability of our Shares. As such, BXPE can be described as illiquid in nature.
- Further, the valuation of BXPE's investments will be difficult, may be based on imperfect information and is subject to inherent uncertainties, and the resulting values may differ from values that would have been determined had a ready market existed for such investments, from values placed on such investments by other investors and from prices at which such investments may ultimately be sold.
- An investment in our Shares is not suitable for you if you need ready access to the money you invest.
- The purchase and redemption price for our Shares will

be based on our net asset value ("NAV") and are not based on any public trading market. While there will be independent valuations of our direct investments from time to time, the valuation of private equity investments is inherently subjective, and our NAV may not accurately reflect the actual price at which our investments could be liquidated on any given day.

- The acquisition of our investments may be financed in substantial part by borrowing, which increases our exposure to loss. The use of leverage involves a high degree of financial risk and will increase the exposure of the investments to adverse economic factors.
- The private equity industry generally, and BXPE's investment activities in particular, are affected by general economic and market conditions, such as interest rates, availability and spreads of credit, credit defaults, inflation rates, economic uncertainty, changes in tax, currency control and other applicable laws and regulations, trade barriers, technological developments and national and international political, environmental and socioeconomic circumstances. Identifying, closing and realizing attractive private equity investments that fall within BXPE's investment mandate is highly competitive and involves a high degree of uncertainty.
- BXPE's investments may be concentrated at any time in a limited number of industries, geographies or investments, and, as a consequence, may be more substantially affected by the unfavorable performance of even a single investment as compared to a more diversified portfolio. In any event, diversification is not a guarantee of either a return or protection against loss in declining markets.

BXPE is authorized and supervised by the Luxembourg supervisory authority, the Commission de Surveillance du Secteur Financier (the "CSSF"). Such authorization does not, however, imply approval by any Luxembourg authority of the contents of the Prospectus or of the portfolio of investments held by BXPE. Any representation to the contrary is unauthorized and unlawful.

References to the "Fund" should be read as references to Blackstone Private Equity Strategies Fund SICAV ("BXPE"), Blackstone Private Equity Strategies Fund (Master) FCP ("BXPE Master FCP"), BXPE Aggregator (a subsidiary of BXPE Master FCP established for the purpose of holding BXPE Investments) and their parallel entities, unless otherwise specified or unless the context otherwise requires. References to the "BXPE US" should be read as references to Blackstone Private Equity Strategies Fund L.P. (together with any feeder fund) and references to the "BXPE Fund Program" as references to "BXPE" and "BXPE US". Capitalized terms used but not defined will have the meanings set forth in the prospectus prepared for BXPE (the "Prospectus").

The words “we”, “us”, and “our” refer to BXPE, together with its consolidated subsidiaries, unless the context requires otherwise. Financial information is approximate and as of October 31, 2025, unless otherwise indicated and may change materially in the future.

Conflicts of Interest. There may be occasions when BXPE’s investment manager and its affiliates will encounter potential conflicts of interest in connection with BXPE’s activities including, without limitation, the allocation of investment opportunities, relationships with Blackstone’s and its affiliates’ investment banking and advisory clients, and the diverse interests of BXPE’s investor group. There can be no assurance that Blackstone will identify, mitigate, or resolve all conflicts of interest in a manner that is favorable to BXPE.

Diversification; Potential Lack Thereof. Diversification is not a guarantee of either a return or protection against loss in declining markets. The number of investments which BXPE makes may be limited, which would cause BXPE’s investments to be more susceptible to fluctuations in value resulting from adverse economic or business conditions with respect thereto. There is no assurance that any of BXPE’s investments will perform well or even return capital; if certain investments perform unfavorably, for BXPE to achieve above-average returns, one or a few of its investments must perform very well. There is no assurance that this will be the case. In addition, certain geographic regions and/or industries in which BXPE is heavily invested may be more adversely affected from economic pressures when compared to other geographic regions and/or industries.

Exchange Currency Risk. BXPE is denominated in US dollars (USD). Shareholders holding Shares with a functional currency other than USD should acknowledge that they are exposed to fluctuations of the USD foreign exchange rate and/or hedging costs, which may lead to variations on the amount to be distributed, and all subscription payments and distributions, as well as returns, will be calculated and reported in the functional currency of the Class. This risk is not considered in the indicator shown above. Currency fluctuations and expenses related to hedging transactions may negatively impact the returns of BXPE as a whole. Each Class of Shares may differ in overall performance, and certain fees (including, but not limited to, the Management Fee, Performance Participation Allocation and AIFM and Administration Fee) will be calculated in the Reference Currency. BXPE will incur expenses in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations.

Highly Competitive Market for Investment Opportunities. The activity of identifying, completing and realizing attractive investments is highly competitive, and

involves a high degree of uncertainty. There can be no assurance that BXPE will be able to locate, consummate and exit investments that satisfy its objectives or realize upon their values or that BXPE will be able to fully invest its available capital. There is no guarantee that investment opportunities will be allocated to BXPE and/or that the activities of Blackstone’s other funds will not adversely affect the interests of BXPE.

Lack of Liquidity. There is no current public trading market for the shares, and Blackstone does not expect that such a market will ever develop. Therefore, repurchase of shares by BXPE will likely be the only way for you to dispose of your shares. BXPE expects to offer to repurchase shares at a price equal to the applicable net asset value as of the repurchase date and not based on the price at which you initially purchased your shares. Shares redeemed within two years of the date of issuance will be redeemed at 95% of the applicable net asset value as of the redemption date, unless such deduction is waived by BXPE in its discretion, including without limitation in case of redemptions resulting from death, qualifying disability or divorce. As a result, you may receive less than the price you paid for your shares when you sell them to BXPE pursuant to BXPE’s share repurchase program.

The vast majority of BXPE’s assets are expected to consist of private equity investments and other investments that cannot generally be readily liquidated without impacting BXPE’s ability to realize full value upon their disposition. Therefore, BXPE may not always have a sufficient amount of cash to immediately satisfy redemption requests. As a result, your ability to have your shares redeemed by BXPE may be limited and at times you may not be able to liquidate your investment.

Limited Operating History. BXPE has a limited operating history, and therefore, prospective investors will have a limited track record or operating history upon which they may evaluate its performance. Although Blackstone Private Equity has made investments through certain of its funds and separately managed accounts that would have been within the investment objective of BXPE, BXPE will make investments under different geographic, market, regulatory and economic conditions than those prevalent when the previous investments were made. The size and type of investments to be made by BXPE could differ from prior Blackstone investments. Where provided, as part of the Prospectus or otherwise, the prior investment results of Blackstone Private Equity are provided for illustrative purposes only and not to imply that such results will be obtained in the future.

Although Blackstone's investment professionals have considerable prior experience, the past investment performance of Blackstone Private Equity (and investment vehicles sponsored or managed by Blackstone Private Equity) is not necessarily indicative of BXPE's future results, and there can be no assurance that BXPE will achieve comparable results, be able to effectively implement its investment strategy, achieve its investment or asset allocation objectives, be profitable or avoid substantial losses.

No Assurance of Investment Return. Prospective investors should be aware that an investment in BXPE is speculative and involves a high degree of risk. There can be no assurance that BXPE will achieve comparable results, implement its investment strategy, achieve its objectives or avoid substantial losses or that any expected returns will be met (or that the returns will be commensurate with the risks of investing in the type of transactions described herein). The portfolio companies in which BXPE may invest (directly or indirectly) are speculative investments and will be subject to significant business and financial risks. BXPE's performance may be volatile. An investment should only be considered by eligible investors who can afford to lose all or a substantial amount of their investment. A Fund will incur costs which will impact on the investment return throughout the life of such Fund. Fund costs may include, for example: fund management; fund administration and servicing; legal; compliance; record-keeping; certain kinds of distribution charges; and other operating costs. A Fund's fees and expenses may offset or exceed its profits. A more detailed description of relevant fund costs and expenses is included in a Fund's offering documents.

Recent Market Events Risk. Local, regional, or global events such as war (e.g., Russia / Ukraine), acts of terrorism, public health issues like pandemics or epidemics (e.g., COVID-19), recession, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the U.S. and global economies and have a significant impact on the Fund and its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in the Fund may be increased.

Reliance on Key Management Personnel. The success of BXPE will depend, in large part, upon the skill and expertise of certain Blackstone professionals. In the event of the death, disability or departure of any key Blackstone professionals, the business and the performance of BXPE may be therefore adversely affected. Some Blackstone professionals may have other responsibilities, including senior management responsibilities, throughout Blackstone and, therefore, conflicts are expected to arise in the allocation of such personnel's time (including as a

result of such personnel deriving financial benefit from these other activities, including fees and performance-based compensation).

Risk of Capital Loss. BXPE offers no capital guarantee. This investment involves a significant risk of capital loss and should only be made if an investor can afford the loss of its entire investment. There are no guarantees or assurances regarding the achievement of investment objectives or performance. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose some or all of your investment. BXPE's fees and expenses may offset or exceed its profits. In considering any investment performance information contained in this document and related materials ("the Materials"), **recipients should bear in mind that past performance does not predict future returns.**

Sustainability Risks. BXPE may be exposed to an environmental, social or governance event or condition that, if it occurs, could have a material adverse effect, actual or potential, on the value of the investments made by BXPE. Blackstone seeks to identify material sustainability risks as part of its investment process.

Target Allocations. There can be no assurance that the Fund will achieve its objectives or avoid substantial losses. Allocation strategies and targets depend on a variety of factors, including prevailing market conditions and investment availability. There is no guarantee that such strategies and targets will be achieved and any particular investment may not meet the target criteria.

Important Disclosure Information

The sole purpose of this material is to inform, and it in no way is intended to attract any funds or deposits. Investments mentioned may not be appropriate for all investors. Any product discussed herein may be purchased only after an investor has carefully reviewed BXPE's Prospectus and executed the subscription documents.

Alternative investments often are speculative, typically have higher fees than traditional investments, often include a high degree of risk and are appropriate only for eligible, long-term investors who are willing to forgo liquidity and put capital at risk for an indefinite period of time. They may be highly illiquid and can engage in leverage and other speculative practices that may increase volatility and risk of loss.

This material includes information related to prior investments that the Blackstone PE Platform has made, in which BXPE will not have any interest. Prospective investors should note that the investment programs, objectives, leverage policies and strategies of Blackstone's PE Platform are substantially different from the investment program and objectives of BXPE, despite each strategy focusing on making private equity investments. The information provided herein regarding the Blackstone PE Platform is, therefore, provided solely for background purposes.

Blackstone Proprietary Data. The source of information in this communication is Blackstone proprietary data unless otherwise stated. Certain information and data provided herein is based on Blackstone proprietary knowledge and data. Portfolio companies may provide proprietary market data to Blackstone, including about local market supply and demand conditions, current market rents and operating expenses, capital expenditures, and valuations for multiple assets.

Such proprietary market data is used by Blackstone to evaluate market trends as well as to underwrite potential and existing investments. While Blackstone currently believes that such information is reliable for purposes used herein, it is subject to change, and reflects Blackstone's opinion as to whether the amount, nature and quality of the data is sufficient for the applicable conclusion, and no representations are made as to the accuracy or completeness thereof.

Case Studies. The selected investment examples, case studies and/or transaction summaries presented or referred to herein may not be representative of all transactions of a given type or of investments generally

and are intended to be illustrative of the types of investments that have been made or may be made by BXPE in employing its investment strategies. It should not be assumed that BXPE will make equally successful or comparable investments in the future. Moreover, the actual investments to be made by BXPE or any other future fund will be made under different market conditions from those investments presented or referenced in the Materials and may differ substantially from the investments presented herein as a result of various factors. Prospective investors should also note that the selected investment examples, case studies and/or transaction summaries presented or referred to herein have involved Blackstone professionals who will be involved with the management and operations of BXPE as well as other Blackstone personnel who will not be involved in the management and operations of BXPE. Certain investment examples described herein may be owned by investment vehicles managed by Blackstone and by certain other third-party equity partners, and in connection therewith Blackstone may own less than a majority of the equity securities of such investment.

Past performance does not guarantee future results and does not predict future returns. For the purposes of this document, "material" ESG factors are defined as those ESG factors that the firm determines have — or have the potential to have — a material impact on an investment's going-forward ability to create, preserve or erode economic value for that organization and its stakeholders.

The word "material" as used herein should not necessarily be equated to or taken as a representation about the "materiality" of such ESG factors under the US federal securities laws, the EU SFDR, or any similar legal or regulatory regime globally. While Blackstone believes ESG factors can enhance long-term value, Blackstone does not pursue an ESG-based investment strategy or limit its investments to those that meet specific ESG criteria or standards, except with respect to products or strategies that are explicitly designated as doing so in their Offering Documents or other applicable governing documents. Any such considerations do not qualify Blackstone's objectives to maximize risk-adjusted returns. Some, or all, of the ESG initiatives described in these materials may not apply to the Fund's investments and none are binding aspects of the management of the assets of the Fund. The Fund does not promote environmental or social characteristics, nor does it have sustainable investments as its objective. Blackstone [Real Estate] may review this position from time to time. A decision to invest should take into account the objectives and characteristics of the Fund as set out in more detail in the Offering Documents, which can be accessed at www.bxpef.com.

Feeder Fund Structures. A feeder fund will invest all or substantially all its assets in its master fund. A master-feeder fund structure is typically put in place for legal and commercial purposes. In general, investors will hold their interests at the level of the feeder fund and fund costs and expenses of the overall master-feeder structure will ultimately be borne by investors on a pro-rated basis as applicable. For third-party, non-Blackstone managed feeder funds investing into a Blackstone master fund, there are likely to be additional costs, fees and expenses that investors in those third-party feeder funds incur from the relevant operator of those third-party feeder funds. Therefore, in some instances, the performance of a feeder fund will differ or be lower, maybe materially, to that of its master fund due to the additional costs, fees and expenses that may have been incurred at the feeder fund level.

The performance shown herein reflects that of direct investors and is net of the respective Fund's management fee, carried interest and other fees and expenses.

Forward-Looking Statements. Certain forward-looking statements, including financial projections and estimates and statements regarding future performance, are inherently uncertain and there may be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. Blackstone undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

Future returns subject to tax. Any future returns will be subject to tax which depends on the personal tax situation of each investor, which may change over time.

Images. The select images of certain investments included in this presentation are owned by existing Blackstone funds, are not held by BXPE, and are provided for illustrative purposes only. There is no guarantee BXPE will make similar investments.

Leverage; Borrowings Under a Subscription Facility. A Fund may use leverage, and a Fund may utilize borrowings from Blackstone or under its subscription-based credit facility in advance of or in lieu of receiving investors' capital contributions. The use of leverage or borrowings magnifies investment, market and certain other risks and may be significant. A Fund's performance will be affected by the availability and terms of any leverage as such leverage will enhance returns from investments to the extent such returns exceed the costs of borrowings by such Fund. The leveraged capital structure of such assets will increase their exposure to certain factors such as rising interest rates, downturns in the economy, or deterioration in the financial condition of such assets or industry. In the event an investment cannot generate adequate cash flow to meet its debt service, a Fund may suffer a partial or total loss of capital invested in the investment, which may adversely affect the returns of such Fund. In the case of

borrowings used in advance of or in lieu of receiving investors' capital contributions, such use will result in higher or lower reported returns than if investors' capital had been contributed at the inception of an investment because calculations of returns to investors are based on the payment date of investors' capital contributions. In addition, because a Fund will pay all expenses, including interest, associated with the use of leverage or borrowings, investors will indirectly bear such costs.

Logos. The logos presented herein were not selected based on performance of the applicable company or sponsor to which they pertain. Logos were selected to illustrate managers and/or portfolio companies that are indicative representations of the thesis, theme or trend discussed on the slide(s) where they appear. In Blackstone's opinion, the logos selected were generally the most applicable examples of the given thesis, theme or trend discussed on the relevant slide(s). All rights to the trademarks and/or logos presented herein belong to their respective owners and Blackstone's use hereof does not imply an affiliation with, or endorsement by, the owners of these logos.

No Benchmark. BXPE is not managed in reference to any benchmark index.

Opinions. Opinions expressed reflect the current opinions of BXPE as of the date appearing in the Materials only and are based on BXPE's opinions of the current market environment, which is subject to change. Investors, financial professionals and prospective investors should not rely solely upon the information presented when making an investment decision and should review BXPE Prospectus, as amended and supplemented. Certain information contained in the Materials discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice.

Private Equity. Net returns for Corporate Private Equity funds shown for realized investments and total (realized plus unrealized) investments, from inception of the business in October 1987. Corporate Private Equity funds represent the flagship global funds and flagship sector and region funds; do not include Tactical Opportunities or Strategic Partners funds. These returns are calculated as the internal rate of return of the total contributions and distributions (including fees, drawdown of expenses, return of capital and recouped losses) for all investments.

Reserves. As is customary in the industry, BXPE may establish holdbacks or reserves, including for estimated accrued expenses, management fees, administration fees, servicing fees, pending or anticipated liabilities, investments, claims and contingencies relating to BXPE. Estimating the appropriate amount of such reserves is difficult and inadequate or excessive reserves could impair the investments returns to investors. If BXPE's reserves are inadequate and other cash is unavailable, BXPE may be unable to take advantage of attractive investments or protect its existing holdings. In these circumstances the Investment Manager may allocate such opportunities to Other Blackstone Accounts, which, in the case of further investments in existing Portfolio Entities could result in BXPE being subject to dilution and may give rise to other significant risks and conflicts of interest, such as limiting BXPE's available liquidity.

Tax. Investments mentioned herein may not be suitable for any or all recipients of this material, and potential investors are advised not to make any investment decision unless they have taken independent advice from an appropriately authorized advisor. An investment in BXPE may involve complex tax structures, which may result in delays in the distribution of important tax information and the requirement that investors obtain an extension on their income tax returns. Notwithstanding anything in this material to the contrary, to comply with U.S. Treasury Regulations Section 1.6011-4(b)(3) (i), each investor or prospective investor in BXPE (and any employee, representative or other agent of such investor or prospective investor) may disclose to any and all persons, without limitation of any kind, the U.S. federal, state or local income tax treatment and tax structure of BXPE or any transactions contemplated by this material, it being understood and agreed, for this purpose, (i) the name of, or any other identifying information regarding (A) BXPE or any existing or future investor (or any affiliate thereof) in BXPE, or (B) any investment or transaction entered into by BXPE, (ii) any performance information relating to BXPE or its investments, and (iii) any performance or other information relating to previous funds or investments sponsored by Blackstone, do not constitute such tax treatment or tax structure information.

Third-Party Information. Certain information contained in the Materials has been obtained from sources outside Blackstone, which in certain cases have not been updated through the date hereof. While such information is believed to be reliable for purposes used herein, no representations are made as to the accuracy or completeness thereof and none of Blackstone, its funds, nor any of their affiliates takes any responsibility for, and has not independently verified, any such information.

Trends. There can be no assurances that any of the trends described herein will continue or will not reverse. Past

events and trends do not imply, predict or guarantee, and are not necessarily indicative of, future events or results.
